DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. Claims 1-5, 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wendt in view of applicants admitted prior art as discussed in paragraph 4 of the last office action.
- 2. Applicant's arguments filed 10/24/2003 have been fully considered but they are not persuasive. In response to applicant's argument that there is no suggestion to combine Wendt with applicants admitted prior art, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See In re Fine, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988)and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, Wendt discloses that the cutting means are preferably done with a preheated cutting knife 9 (col 3 lines 25+). This infers that other cutting operations are possible. Applicants admitted prior art teaches the concept that it is conventional to cut vent apertures using cutting wheels and anvils (bottom of p. 1 in specification and fig 1). Therefore, it would have been obvious to substitute the preheated cutting knife of Wendt with the cutting wheel and anvil means of applicants admitted prior art to provide for a mechanical equivalent cutting instrument using known conventional means.
